Professional Profile

Full Stack Developer with over 12 years of experience building highly scalable web, mobile, and desktop solutions. Specialized in React, React Native, Laravel, NestJS, WebSockets, and SQL/NoSQL databases. Extensive track record in critical projects across sectors such as healthcare, banking, government, education, and e-commerce in Latin America and the United States.

Technical Skills

Languages: JavaScript, TypeScript, PHP, C#, SQL, Visual Basic, Java.

Frameworks/Libraries: React, React Native, Redux Toolkit, Laravel, Symfony, NestJS, NextJS, Vue.js, Nuxt.js, Flutter.

Databases: MySQL, PostgreSQL, MongoDB, SQL Server.

Other Technologies: WebSockets, WebRTC, Jitsi Meet, Flutter, Expo, Stripe, Transbank SDK.

Tools: Git, Docker, Vite, Highcharts, Crystal Reports.

Methodologies: Agile, Scrum.

Others: Configuration of Linux servers, mail servers, web.

Education

Instituto Universitario de Tecnología de Administración Industrial (IUTA), 2006–2010.
Associate Degree in Computer Science.

Unidad Educativa Nacional Pedro Emilio Coll, 2000–2004.
High School Diploma in Science.

Work Experience

- **Nexo IT – Chile (2024 – Present)**
  - Maintenance and enhancements to portals and mobile applications using Nuxt and React Native (Expo).
  - Integration of payment gateways (Transbank SDK, Stripe).
  - Desarrollo de ecommerce con ReactJS y backend en Nuxt (Vue2).
  - Developing a Python service to check customer account statuses and generate .zip files with text files.
  - Developing a microfrontend in Angular 18 to check customer account statuses.
  - Technologies: PHP Native, Nuxt 2, ReactJs, MySQL, React Native (Expo), Oracle, Python, Angular 18.

- **Ceiboo Software Factory – Argentina (2023 – 2024)**
  - Developed a scheduling system for the Tourism Secretariat of Gualeguaychú.
  - Technologies: Native PHP, Laravel, NestJS, React, MySQL, React Native (Expo).

- **Smartway – Argentina (2022 – 2023)**
  - Developed a PrestaShop e-commerce platform for the Secretariat of Agriculture.
  - Built a medical video consultation system for government organizations.
  - Technologies: ReactJS, React Native (Expo), MySQL, WebSockets, PHP, Symfony, TypeScript, Jitsi Meet, NestJS.

- **Freelance Project – Chile (2022)**

  - Developed a CRM for DonHuesillo Distributors.
  - Frontend: ReactJS with Vite and Redux Toolkit; Backend: Laravel 9.

- **Freelance Project – Chile (2021 – 2022)**

  - Created a digital document and contract signing system for SinNorataria
  - Technologies: ReactJS, Redux Toolkit, NestJS.

- **Omnix Solutions – USA (2020 – 2022)**
  - Developed a web-based HR management application.
  - Migrated from Laravel to ReactJS and built APIs with NextJS.
  - Technologies: Laravel 7, MySQL, PHP 7.4, JavaScript, jQuery, ReactJS, NextJS, TypeORM, Express.

- **SportClub Management — Argentina (2019–2021)**
  - Supported and developed an internal payment and member registration system.

- Technologies: Laravel 7, MySQL, MongoDB, Flutter, JavaScript, jQuery, NodeJS, React Native.

- **Digisalud — Venezuela (2018–2019)**
  - Built a mobile app for offline health surveys with synchronization capabilities.
  - Developed web tools for bulk Excel data uploads.
  - Technologies: Flutter, MySQL, Native PHP, JavaScript, jQuery.

- **Antilope Lab — Venezuela (2016–2020)**
  - Developed a national registration system for Fe y Alegría.
  - Created a mobile order request app for distributors.
  - Built an offline desktop app for medical record synchronization.
  - Technologies: Laravel 7, MySQL, JavaScript, jQuery, Flutter.

- **Softech Consultores — Venezuela (2014–2015)**
  - Enhanced functionalities for the Profit Plus system.
  - Designed reports using Crystal Reports.
  - Technologies: Visual FoxPro, C#, SQL Server, Crystal Reports.

- **Datapronet Consultores — Venezuela (2011–2014)**
  - Supported and developed modules for the Adaptapro system.
  - Provided IT support for Zara, Pull & Bear, and Bershka stores (POS and SAP systems).
  - Technologies: DPXBASE, MySQL, SQL Server, Visual Basic 6, VB.NET, C#.

Key Projects

- Web & Mobile Platform for Administration, E-commerce, and Delivery — Chile (2023–2025)
  - Designed and implemented a comprehensive solution including:
    - A web admin panel for product, order, user, and logistics management.
    - A delivery mobile app (React Native) with real-time maps and shipment tracking.
    - A customer app for browsing products, purchases, favorites, and push notifications.
  - Technologies: ReactJS, React Native (Expo), NestJS, MySQL, Firebase (Auth/Push Notifications), Google Maps API, Redux Toolkit.
  - Results: Scalable solution supporting 500+ monthly active users across iOS, Android, and Web.

- Medical Video Consultation System — Argentina (2022–2023)
  - Secure web and mobile platform integrated with Jitsi Meet.

- Technologies: ReactJS, React Native (Expo), WebSockets, NestJS, MySQL.
- Results: Reduced remote care wait times by 40%.

- E-commerce for the Secretariat of Agriculture — Argentina (2022)
  - Custom PrestaShop e-commerce platform.
  - Technologies: PHP, Symfony, MySQL.
  - Results: 60% increase in online sales within the first 3 months.

- Legal Document Management System — Chile (2021–2022)
  - Web app for automated contract generation with digital signatures.
  - Technologies: ReactJS, Redux Toolkit, NestJS.
  - Results: Automated 80% of manual processes, saving time and reducing errors.

Courses
- Dart: From Zero to Advanced.
- React Native CLI: Native Apps for iOS and Android.
- MongoDB Essentials — Understand the Basics of MongoDB.
- React Native EXPO: Native Apps for iOS and Android.
