PROFESSIONAL SUMMARY

Senior Full Stack Developer with 12+ years of experience designing, developing, and maintaining scalable web, mobile, and enterprise applications for clients across banking, healthcare, government, education, ecommerce, and logistics industries.

Specialized in React, React Native, TypeScript, Laravel, NestJS, Node.js, REST APIs, WebSockets, WebRTC, SQL and NoSQL databases. Proven track record delivering high-performance software solutions used by thousands of users across Latin America and the United States.

Experienced in software architecture, mobile development, cloud-based solutions, Docker, CI/CD workflows, API integrations, authentication systems, payment gateways, and real-time communication platforms.

Passionate about building scalable applications, optimizing performance, and solving complex business challenges through technology.

CORE SKILLS

Frontend: React, React Native, Expo, Next.js, Vue.js, Nuxt.js, JavaScript, TypeScript, Redux Toolkit, Vite

Backend: Laravel, NestJS, Node.js, Express.js, PHP, REST APIs, JWT Authentication, Microservices, WebSockets, WebRTC

Databases: MySQL, PostgreSQL, MongoDB, SQL Server, Database Design, Query Optimization, Data Modeling

DevOps & Cloud: Docker, Git, GitHub Actions, CI/CD, Linux Server Administration, Nginx, AWS (EC2, S3, IAM – Basic), SMTP Servers, SSL/TLS Management

Additional Technologies: Firebase, Stripe, Transbank SDK, Jitsi Meet, Google Maps API, Push Notifications, Agile, Scrum

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer – Nexo IT (Chile) | 2024 –2026

• Maintain and enhance web and mobile applications using React Native (Expo), React and Nuxt.
• Integrated payment gateways including Stripe and Transbank.
• Developed Python services for account statement generation and automated file processing.
• Built Angular 18 microfrontend solutions for banking-related systems.

Full Stack Developer – Ceiboo Software Factory (Argentina) | 2023 – 2024

• Developed appointment scheduling platform for the Tourism Department of Gualeguaychú.
• Designed backend services and frontend interfaces supporting public sector operations.

Senior Software Developer – Smartway (Argentina) | 2022 – 2023

• Built ecommerce solutions and healthcare telemedicine platforms.
• Developed secure video consultation systems using WebRTC and Jitsi Meet.
• Implemented real-time communication features with WebSockets.

Freelance Full Stack Developer – Chile | 2021 – 2022

• Developed CRM systems and digital contract generation platforms.
• Implemented electronic signature workflows and document automation.

Software Engineer – Omnix Solutions (USA) | 2020 – 2022

• Participated in HR management platform modernization.
• Migrated legacy Laravel applications to React and Next.js architecture.
• Developed APIs and optimized database performance.

KEY PROJECTS

Ecommerce & Delivery Ecosystem

- Administration platform
- Delivery mobile application
- Customer mobile application
- Real-time order tracking
- Push notification system
- Authentication and role management

Technologies: React, React Native, NestJS, MySQL, Firebase, Google Maps

Telemedicine Platform

- Video consultations
- Real-time communication
- Appointment scheduling
- Patient management

Technologies: React, React Native, NestJS, WebSockets, WebRTC, Jitsi Meet

EDUCATION

Associate Degree in Computer Science
Instituto Universitario de Tecnología de Administración Industrial (IUTA)

LANGUAGES

Spanish: Native
English: Professional Reading and Technical Documentation
